Email me when message is sent

View date in Publisher

405

Send Now

Set the schedule date and time and check the box to Email me when message is sent.

Then you need to select the social networks to send from and you do so in the drop down box to the right of the Compose Message text box:

Compose message

Send Now

Click in the drop down box to see your social network options and choose whichever profile you wish to use to post the message to the wall.
